Soft Skills: Problem Solving, Team Player, Adaptability

PROJECTS

Hotel Management System | Python, SQL | [GitHub](#). Jun '25

- Developed a basic Hotel Management System using Python and SQL to manage customer details, room bookings, and billing records.
- Implemented features for adding new customers, checking room availability, updating booking information, and generating bills.
- Used Python for application logic and SQL for storing and retrieving hotel data, gaining practical experience in database operations, problem-solving, and coding.

CERTIFICATES

C Programming | [Coursera](#) Jan '26

ACHIEVEMENTS
